HIT BY FLAK
FIGHTERS
POSSIBLE CAPTURED B-17
ORDERED TO BAIL OUT
LANDED IN TREE, HOLDING GI SHOES
RAN
We met flak over Belgium, which was not bad but which seemed to have hit number two engine. I saw clots of oil flying past the tail, ~~and~~ just a few minutes after the target number two engine went out so fast that ~~we~~ it could not be feathered. We were still at altitude, but ~~we had wind~~ because of head winds we were forced back and lagged in formation. The B-24's behind us passed us. While we were getting near the coast number three engine went out and fighters hit us. A B-17 was tailing us. I thought that it was a captured one, for about the time that it appeared we met very accurate flak, ~~as if it were calling our position~~. The navigator was wounded. The B-17 never came within range of our guns. Things The pilot dropped the wheels and turned ~~into land~~ the plane back; the fighters were hot and heavy and something went wrong with the engines. We received the order to bail out. The parachute of one of our replacements on the ship opened in the waist. Another man helped him to fold it up, and he got out all right.

I landed in a tree not far from a village, still holding my GI shoes in my right hand. Some 40 or 50 farmers ran toward me. I did not know what the score was, got out of my harness, and started running in the opposite direction. In the woods I discovered another group of people ^{coming} running toward me. I ran right into one man. ~~I did not know whether to hit him or what to do.~~ While I was hesitating he stuck out his hand, so I shook hands with him. He spoke to me excitedly, but I could understand nothing of what he said except "American". I figured that he was all right, so I sat down and put on my GI shoes, giving him my flying shoes and boots. He talked to some other people.

HIT BY FRIM GERMAN SEARCH
HELPED
Suddenly someone said, "Allemands!" and everyone scattered. I was left standing by myself. I ran into the woods, heard someone coming, and lay down. A German policeman passed but did not see me. About 15 minutes later a boy came through the woods shouting, "Hello, boy!" When I raised cautiously he came over. I gave him a cigarette, and he said that he would take me away, ~~so that the Germans would not catch me.~~ He moved me to the other side of the woods where I stayed until

evening.

Appendix B

1. The following information has been obtained from a sergeant who evaded capture in enemy occupied territory.

2. Further circulation of this information may be made, but in that case it is important not to divulge any details about the source.

Statement of information covering the period from 1 December 1943 to 12 May 1944

a. Informant was told in December that an RDF station was being built near the railroad station in POPERINGE (Belgium). The building was well camouflaged. There was some talk about submarine parts in connection with this building. Somewhere nearby was a building filled with confiscated civilian radios.

b. Informant was told in early January that in the German-controlled Brussels papers had appeared something about a 12-ton rocket bomb installed along the coast for action against England.

c. Appendix D

1. I did not use my aids box, ~~because~~ for I was helped immediately.

2. I carried a yellow purse.

3. I carried four or five passport-size photographs which I could not use because they were too small.

4. I had been lectured at my base on evasion and escape. The lectures were worthwhile. Especially good was the emphasis on exercises, which you most appreciate when you come to cross the Pyrenees.

Otherwise all I had to do was ~~to do as~~ my helpers told me.
